

I have been informed of current consideration being give to changing LPFM status that may infringe on other stations that are either local or national. My family and I listen to a station that utilizes FM translators to broadcast on a national basis. We personally support the station financially as well. My wife and I have found this station to provide a great value and benefit to my kids (13, 11 and 7). If changes were made to hurt the future of K-LOVE, I would consider it to be very infringing on my family's ability to listen freely to radio stations.

Please reconsider any changes that might take away K-LOVE's abillity to freely broadcast where it can do so economically. Thanks
